TRANSCRIPT

REMOTE VIEWING (RV) SESSION DC-83

TIME

#14: This will be a remote viewing session for 12 February 1981.  
Mission time is 0900 hours.

PAUSE

All right #08, it's 0900 hours. Your mission for today is to find the man in the photograph. I want you to focus, concentrate and focus on the man in the photograph. Project yourself to his location and describe your surroundings at this time.

PAUSE

+03 #08: There's a...there's an overview of...of a map of Europe, and he's in a ...a Warsaw Pact country...which is located...if you had a, a point right smack in the middle of Europe... you would be...just barely something like south, southeast of that point in a country that is, uh, runs from northwest to southeast, and I think that's a Warsaw Pact country. That's the overview.

I got two...impressions of a...densely populated, Slavic type city, even with, uh, trolley cars..... Everything's supposed to be wanting there.

PAUSE

#14: Do you recognize the country or the city?

#08: It comes back to the overview of...again to a point..... south, southeast of.....I'll say Czechoslovakia. There are no meanings. It's just.....

#14: Okay. I want you now to move forward in time. Move forward in time to 19 February 1981, 19 February. I want you again on 19 February to focus on the individual in the photograph and describe to me his location at that time.

#08: As you said that I got a very quick impression of traveling to Germany.....near.....

PAUSE

~~SECRET~~

~~SECRET~~

#08: I wanna say.....I wanna say Bonn and Berlin 'cause these two names keep...straying in. But there's a...there's a physical feature that....someone would be able to recognize... There's a...there's this...an overhanging sign... made of, uh, white glass...looks like two or three inches thick, and goes into (mumble) sort of. And its got a blue border. And this is overhanging on the sidewalk, and it has to do with the establishment. Also a picture of a, in the same area...of almost a, a column or a post with a, with a clock in it.... In fact...and the clock is in the... is embedded in the metal that looks very black and kinda moldy green....

#14: Are you there with the individual now?

+10 #08: Well...I have a feeling he's at a...this guy, uh, left where he was to...to undertake some kind of transaction at this place, I'm describing that area, okay, and I got the distinct feeling he's in Germany...

#14: Okay, I want you to focus very hard on this individual, and ask him what his name is.

PAUSE

#08: Give me a little time on that, he's put himself on the defensive..... He's not going by his real name.....he not going by his Slavic name, which I can't pronounce. It's a German name he's going by his first or second name sounds like...Glauter, Lauter, Glauter..... That's the first name... Second name sounds like Otenburg, Rotenburg, something like that..... I may be getting off the track, I think this is about.....Warsaw Pact Intelligence....

#14: Okay.

#08: I may be (mumbling)...

+20 #14: Okay, ask yourself the question what name is associated with that photograph. What name is associated with that photograph?.....

#08: He doesn't know, because he doesn't know when the damn photograph was taken, but..... That's not coming through clearly at all, but I think it'd be the German name.....

#14: All right, #08, I only have one last question, and I still want you to focus on this individual on the 19th of February, 19th of February. I want you to try to get the name of this man's location, the name of the location associated with this man on that date.....

~~SECRET~~

~~SECRET~~

#08: Okay, well.....ah, well, I'll give you what I can... Something that sounds like Bladensburg, then a slash, then a Hamburg, then I was trying to find some characteristics, physical characteristics, something associated with a lot of statues and a monument with a horse which is prominent in the middle of the city someplace. And that's just about the best I can do.

#14: All right #08. I want you now to come back to the present, but maintain your relaxation and concentration. I want you slowly to come back to this room, to this time, to this day.

We're ready for debrief.....

#08: I'm ready to go. Okay. In sketch number one I'll show you what I had for an overview. And to pinpoint my point of reference I'll put an "X" which would be right in the center of the geographical area to which I was looking at.

#08: Okay. If I went south-southeast of that point of reference to a country that went something like this. And I, maybe I should remember Europe, I don't, I don't remember the disposition of the countries. But this cat was in this country here someplace, which I'll put a dot here. And I got the impression, and I'll put a dotted line, that this was a division of the, of a western sector....of that geographical area.

Okay. Then I tried to work with this overview and try and pinpoint what it was. But I got the distinct impression it was Warsaw Pact. I couldn't tell whether it was Czechoslovakia or Rumania or Bulgaria or anything else. So I just relied purely on imagery in trying to come up with a picture of where it might be.

Uh, then I got the, well, I won't go over the entire, entire viewing session, but I got the distinct impression that he left this place and that, uh, he did go westward. I saw, at first might be Bonn or Berlin or something. But then the names as you saw when I really waited for some type of, uh, imagery or words or names at the end of the session that changed. So I don't know.

#14: Well, we were also in a different time frame.

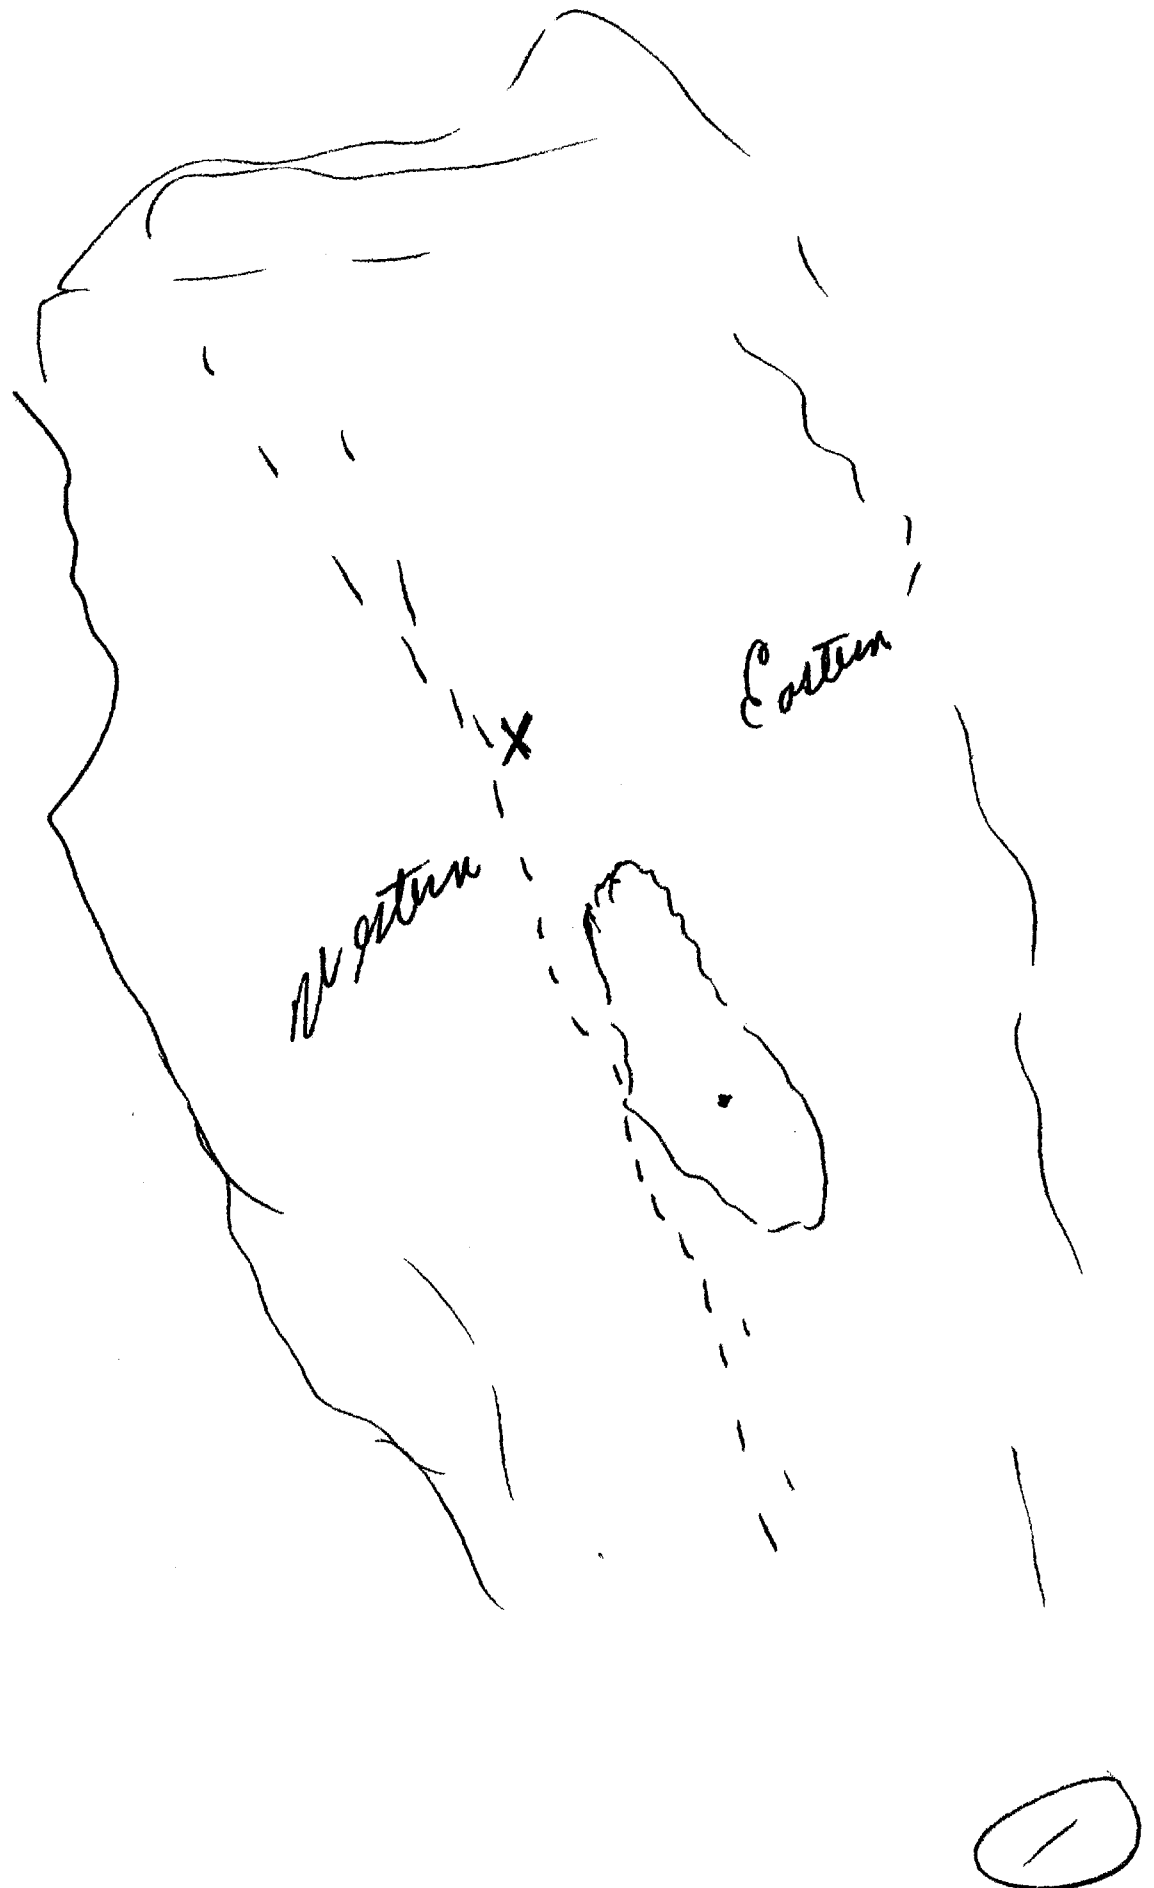

#08: Yeah, yeah. Uh...but I can tell just, you know, I can tell from impressions as to about where the location might be. It's not like reading a map, there are no names on the geographical area concerned. And I could only, uh, like having a piece of acetate and focusing with an "X" and starting from there, uh, indicate where I, where I saw things as they were occurring. Anything else you want?

~~SECRET~~

~~SECRET~~

- #14: And, just go over his- the only name you could come up with was, uh, his German type name or whatever-
- #08: Yeah, yeah, I couldn't, uh, his, his, what I could consider his Czech name or Slavic name was very involved, both first and second name, and, uh...I couldn't, it would have been a muttering with a "ski" or something. I couldn't pronounce it, there was no way it could come close. But I tried to give a phonetic approximation of evidently what he, what I thought was a German name that he might be using.
- #14: And that was?
- #08: Whatever I said.
- #14: Lauter-
- #08: Yeah.
- #14: You said Lauter or Glauter-
- #08: Yeah, Glauden, Glauter, I think that was the name that came as a first name.
- #14: Then the second name was a Oten or Rotenburg?
- #08: Yeah, With a double T or TH and then a BRG or BR, BURG or something like that.
- #14: Okay, no further questions. End of session.

TARGET CUING INFORMATION

REMOTE VIEWING (RV) SESSION DC-83

1. (S/NOFORN) The remote viewer was shown the attached photograph prior to the start of this session.
2. (S/NOFORN) During the session the remote viewer was asked to focus on the individual in the photograph. The viewer was asked to identify the individual's present location, his location on 19 February 1981, and to try and determine the individual's name.
